### **Management**

**Dan Chiche** MD, MBA is CEO at Kompas Medical Services and CMO at NEOMED, a public private partnership, drug development institute. He has a successful 20 years career history in major European and North American pharmaceutical companies (Glaxo and BMS) as an executive in Clinical Research and Medical Affairs. He is a Medical Doctor with experience in multiple therapeutic areas, in addition to training in biostatistics and business administration. He has been involved in key clinical development of compounds in various therapeutic areas, in particular bacterial infections, HIV, hepatitis, influenza, rheumatoid arthritis, hypertension, diabetes, pain, oncology, COPD, asthma. He is fully familiarized with clinical research standards: ICH, FDA and EMEA. His local and international network of experts in various fields enables him to provide integrated pharmaceutical development services. During his 20 years with major pharmaceuticals, he has worked with business colleagues in order to maximize the product properties, using medical communication tools, developing medical concepts and an effective network of KOLs. As an executive manager, he has been deeply involved in the optimization of human resources and processes, in order to deliver on time, high quality outputs in clinical research and medical affairs.
